

QRS[®] 101

Home System

**German Pulsed Electromagnetic Field
Therapy Device**

**Designed Specially For Pain
Management & Palliative Care**

FOR THE FIRST TIME IN SOUTH INDIA

QRS® - Frequencies For A Better Living

What is QRS® ?

QRS® or Quantron Resonance System is the world's first and German made Pulsed Electromagnetic Field (PEMF) therapy system that was developed during the 90s by a group of scientists from Germany, Switzerland, Austria, USA, Russia, Trinidad, Holland and Serbia. QRS®, with its unique e-function pulse train, is mostly used as a Complementary therapy for Pain management and Palliative care.

QRS® therapy helps cure the cause of a disease, rather than its symptoms. QRS® systems are being used by thousands of reputed Hospitals, Clinics, Wellness Centres and Qualified Medical Practitioners throughout the world. Although QRS® possesses three worldwide patents, its working mechanism is not a secret having it disclosed to researchers for numerous scientific studies.

QRS®-101 Home System

QRS®-101 Home System comprises of Control Unit, Coil Mat Applicator, Coil Pillow Applicator and a Carry Bag. QRS®-101 Home System is designed to be used at Hospitals, Clinics, Wellness Centres, Gymnasiums and Homes. Both the Applicators can be connected to the Control Unit simultaneously as there are two jacks. But only one of them can be operated at a time.

QRS®-101 Control Unit : Settings are done on the Control Unit. There are three Mode buttons (Vital, Basis & Relax), three Duration buttons (8 min, 16 min & 24 min) and three Intensity buttons (Sensitive, Medium & Intensive). The Duration and Intensity can also be customized as required. The timer functionality if enabled will start and stop therapy at specific times with the programmed settings. A buzzer indicates end of therapy session.

QRS® Coil Mat Applicator : The Mat Applicator is used for full body application. Lying on the Mat Applicator may improve blood circulation, improve oxygenation of cells (& tissues) etc., which may result in improved mitochondrial function, improved energy production, improvement in the functioning of parasympathetic nervous system (peaceful sleep), etc. 8 minutes of QRS® therapy may provide the same health benefits as 2 hours of Daily Walk.

QRS® - Effective, Essential and Affordable Therapy

QRS® Coil Pillow Applicator : The Pillow Applicator is designed for local pain application. For example, it can be wrapped around knee, shoulder, etc., for improving local pain. It may reduce chronic pain quickly

QRS® -101 Accessories

The optional accessories are QRS® Eye Applicator, QRS® Pen Applicator & QRS® Ear Applicator.

QRS® Eye Applicator : The Eye Applicator may help in improving vision, removing dark circles around eyes and rejuvenation of the eye area. All these may be achieved by improving blood circulation around eyes, reducing eye inflammation, reducing high intraocular pressure, etc.

QRS® Pen Applicator : The Pen Applicator is ideal for pain spots. It may reduce pain in fingers, jaws, elbows, eyes, ears, paranasal sinuses etc. It may also help in reducing dental pain

QRS® Ear Applicator : The Ear Applicator helps in curing Tinnitus and healing injured ear.

The Principle of QRS®

Body cells behaves like dc cells (dry cells). Every cell has got its own voltage (Membrane Potential) due to transport of ions across the cell membrane. When the Cell Membrane Potential drops below a particular value due to external factors (Electrosmog/ Medications/ Alcohol/ Cigarette Smoking/ Poor Diet/ Chronic Stress/ Environmental Pollutants) or hereditary reasons, the membrane potential of Mitochondria (powerhouse of the cell) gets altered leading to Mitochondrial Dysfunction.

Thus, a healthy cell becomes ill cell. Ill cells causing Mitochondrial Dysfunction and hence poor energy production are the core cause of all chronic diseases. The QRS® e-function pulse train pass through the body without resistance and latches into the 'electromagnetic receptors' at various spots in the cell membrane (follows Key-Lock Principle).

QRS® Restores & Preserves Health

This opens up temporary tiny pores (Electroporation) or Ion Channels in the membrane. The ions outside the membrane are lined up and transported to the inside of the cell more effectively by the QRS® e-function pulse train. This osmotic pull effect increases Trans-membrane Potential (cell voltage), electron transport, mineral-nutrient absorption, blood circulation, oxygenation and free-radical scavenging (stops early aging).

A higher 'blood and oxygen' penetration provides further positive effects such as reduction of fermentation processes and acid excesses, relaxation of tense hardened muscles, boosting metabolism and strengthening the immune system. Therapy waves and body waves comes in phase causing resonance (intensity of signals gets added up) and hence an increase in energy production. This may further lead to reduction in calcification, stress (oxidative) and inflammation. QRS® works in a purifying way by promoting the removal of toxic agents out of the cell. The increase in cell voltage transforms the ill cell to a healthy cell. Cell voltage drops naturally with age. QRS® maintains optimal cell voltage throughout our life. Therefore, QRS® is essential for everybody.

QRS® Therapy Session

During a typical QRS® therapy session, the user often starts with an 8 to 16 minute session on the Mat at low intensities. This improves blood circulation and cell functioning. It also helps in normalizing heart beat and blood pressure.

Often, after this session the therapy is continued with the Pillow Applicator wrapped on local pain spots (e.g. lower back, hip, shoulder, neck, knees, foot). This is mostly done at higher intensities.

How Often and How Long For Getting Better Results ?

For getting relief from pain, one or more sessions (24 min - 1 hour) using Pillow Applicator may give better results.

Mat Applicator is recommended (in general) to be used (16 min session) by all twice daily. This may improve health and may boost immunity.

Is QRS® Safe To Use ?

QRS® frequency range include the frequencies of brain signals and biochemical reactions. QRS® eliminate frequencies of electrosmog (man-made electromagnetic radiation that damages cells) by its inbuilt electrosmog kill feature. Also, the strength of pulsating magnetic field of QRS® is well below the ICNIRP limits of WHO. All this shows that QRS® is extremely safe to use.

For the following contraindications, the QRS® application shall be used only under medical supervision: Pregnancy (2) Epilepsy (3) Massive Hypothyroidism (4) Very Severe Heart Rhythm Disturbances (5) Cancer (6) Severe Hypo- and Hypertension

Recharge Your Life With QRS®

Does QRS® Cause Side-Effects ?

QRS® mimics the frequencies of Nature and the frequencies of body cells. However, if a user fails to drink water (mineral water recommended) before a high intensity therapy session, there are chances that the user may get dehydrated and feel dizzy. So, QRS® will not cause any side-effects if all the protocols are followed.

Indications

QRS® may help cure :

• Cardiovascular Diseases	• Wound Healing	• Fatigue
• Circulation Problems	• Chronic Pain	• Stress
• Rheumatic Diseases	• Osteoporosis	• Diabetes
• Tension Headaches	• Joint Pain	• Neuropathy
• Broken Bones	• Implant Problems	• Enlarged Prostrate
• Stroke	• Ulcers	• Chronic Back Pain
• Muscle Stiffness	• Bedsores	• Sleep Disorders
• Muscular Disorders	• Migraines	• Fibromyalgia
• Glaucoma	• Hypertension	• Skin Diseases
• Cancer	• COVID-19	• Blood Pressure

Who needs QRS® ?

1. Those Who Want To Live Healthier
2. Those Who want To Reduce Pain Naturally
3. Those Looking For A Proven Therapy
4. Those Suffering From Heart Disease / Diabetes / Neurological Disorders / Lung Disease / Sport Injuries / Bone Fractures / Joint Pain / Back Pain / Hip Pain / Foot Pain / Similar Ailments
5. Those Who Have Already Spent a Lot Of Money For Treating Diseases And Couldn't Yet Cure Them
6. Those Who Are Not Able To Do Daily Walk Anymore
7. Those Looking For A 100% Safe Therapy & A Therapy Without Any Side Effects
8. Those Who Want To Treat The Cause Of A Disease Rather Than Its Symptoms
9. Those Who Are Interested In Preventative Therapy

QRS® - The Medicine Of The 21st Century

Benefits of QRS®

1. Ensure Effective, Essential And Affordable Healthcare For All
2. Live Longer & Healthier
3. Reduce Chronic Pain Quickly
4. Improve Blood Circulation, Oxygenation & Mitochondrial Function
5. Increase The Energy Production Of All Body Cells
6. Improve Sleep & Increase Vitality
7. Reduce Inflammation, Stress (Oxidative), Calcification
8. Improve Blood Pressure, Cholesterol Levels, Uptake Of Nutrients, Cellular Detoxification & Cellular Regeneration
9. Balance The Immune System And Stimulate RNA & DNA
10. Accelerate Repair Of Bones And Soft Tissues
11. Relax Muscles

Other Cellular Effects Of QRS®

1. Improves Intercellular Fluid Flow
2. Improves Production of Nitric Oxide
3. Stimulates the Production of ATP (Adenosine Tri Phosphate)
4. Stimulates Inter-cellular Communication
5. Stimulates Electron Transport In Cells

Other Biological Effects Of QRS®

1. Increased Lymph Flow
2. Promotes Faster Healing of Injuries
3. Reduces Fibrous Tissue Formation
4. Stimulates The Release of Endorphins

QRS® - The Revolutionary Cure For Pain

QRS® Testimonials

“QRS is a blessing for mankind from the infant to the geriatric. QRS will lead to a change of paradigm in medicine.”

*Dr. Linus Pauling
Two time Nobel Prize winner,
Four time Nobel Prize nominee.*

“Although, in the U.S. a number of devices do exist working with electromagnetic fields, none of them has such a profound scientific background as the QRS system.”

*Dr. R. O. Becker,
Twice nominated for the Nobel Prize
Author of The Body Electric*

QRS® Centres In India

QRS Devices were already installed at All India Institute of Medical Sciences (New Delhi), Dr. Ram Manohar Lohia Hospital (New Delhi) and 50 QRS Clinics owned by different Grama Panchayaths in the State Of Haryana.
